WHERE FUNDS GO?

I am writing this letter in regard to an article I read in the Star a couple of days ago. This article stated that Radio Free Europe isn't free. Instead it costs the American taxpayers \$30 million annually. Radio Free Europe was supposed to be supported by private contributions.

Most Americans do not know the real facts. The funds are obtained through the Central Intelligence Agency under a series of fake foundations. What other organizations are CIA fronts, and what other unknown deeds are performed in the name of and the expense of the American taxpayers? Maybe now taxpayers will try to find out where their money is going.

BEVERLY NEWTON
